

MISSOURI BAIL BOND & SURETY RECOVERY AGENT

24-Hour Master Licensing Training

Missouri Bail Bond & Surety Recovery Agent
Master Program Rollout: Stakeholder
Identification & Impact Analysis Report

Travis J Griffin

1. Executive Summary & Change Scope

1.1. Program Overview & Core Purpose

This report establishes the executive stakeholder identification, change management, and regulatory impact framework for the statewide deployment of the "Missouri Bail Bond & Surety Recovery Agent 101" pre-licensing and continuing education framework. Developed by Griffin Consulting (© 2026 Griffin Consulting), this vocational program executes a strategic transition from legacy, unstandardized paper and classroom-based instruction toward a centralized, auditable, and digital learning model across the State of Missouri. The program restructures vocational entry and ongoing professional development into a standardized 24-hour initial basic training curriculum, delivered in two 12-hour instructional modules. Delivered through interactive, SCORM-compliant e-Learning packages developed on the eXeLearning platform, the curriculum embeds statutory mandates, administrative rules, judicial precedents, and practical field protocols directly into the learning experience. From an enterprise risk management perspective, this digital transformation mitigates state-level regulatory non-compliance, minimizes indemnification default exposures for General Agencies, and establishes an auditable digital trail for Department of Commerce and Insurance (DCI) Market Conduct examinations. Governed by executive leadership—including the Lead Managing Partner and Lead Curriculum Facilitator—the initiative standardizes pre-licensing education, modernizes compliance tracking via State-Based Systems (SBS) for Organizations, and enforces legal liability controls across all bail bond and surety recovery personnel statewide.

1.2. Statutory & Regulatory Alignment Framework

The program rollout synthesizes Missouri's statutory, judicial, administrative, and common-law governance structures:

- **Statutory Authority :**
- **RSMo Chapter 374:** Governs statutory oversight by the Missouri Department of Commerce and Insurance (DCI). Key sections include RSMo 374.700–374.789, specifically 374.710 (agent qualifications and licensing mandates), 374.715 (licensure applications, \$150 statutory fees, and monetary asset assignments), 374.719 (fiduciary collateral accounting, mandatory numbered receipting, cost reimbursement limits, and record retention), 374.757 (mandatory local law enforcement notification before fugitive apprehension by licensed bail bond agents), 374.783/374.784 (surety recovery agent qualification, scope, and licensing requirements), and 374.789 (prohibited acts, force continuum limits, and criminal/civil liabilities).
- **RSMo Chapter 544:** Governs the Missouri Criminal Code, recognizance rules, court bail mechanisms, conditions of release, commitments, and bond forfeiture proceedings.
- **RSMo Chapter 324:** Governs general law enforcement notification standards (RSMo 324.2184) for private recovery operations, including mandatory pre-apprehension dispatch contact and visible DCI identification badge display.
- **RSMo Chapter 548:** Enforces the Uniform Criminal Extradition Act, establishing strict jurisdictional limits and legal processes for interstate fugitive transfers to prevent illegal cross-border abductions.
- **Federal Common-Law & Judicial Rules :**

- **Landmark Federal Precedent (*Taylor v. Taintor*, 1872):** Establishes the constitutional common-law legal foundation for the private jailer doctrine. It defines the contractual relationship between the principal (defendant) and the surety, granting the surety private arrest authority and custody rights while establishing legal boundaries regarding state lines and judicial process.
- **Missouri Supreme Court Rule 33:** Specifically Rule 33.17, which sets individual surety qualification criteria. Requirements mandate that individual sureties be reputable, at least 21 years of age, hold net assets exceeding statutory exemptions equal to the bond amount subject to execution in Missouri, have zero felony or moral turpitude convictions/pleas within the preceding 15 years, maintain no active legal or public officer disqualifications, and hold no outstanding bail forfeitures or unsatisfied court judgments.
- **Administrative Code :**
- **20 CSR 700 Chapter 6** Directs Department licensing and administrative rules, including 20 CSR 700-6.100 (application forms, \$150 licensing fees, and renewal procedures), 20 CSR 700-6.150 (24-hour initial basic training requirements), 20 CSR 700-6.160 (mandatory 8-hour biennial continuing education requirements), 20 CSR 700-6.170 (mandatory written 30-day change of status reporting for name, address, or SSN updates), and 20 CSR 700-6.200 / 6.250 (assignment and acknowledgment of monetary assets).
- **20 CSR 100-8.040 & 20 CSR 200-4.010:** Governs market conduct record retention, requiring all physical and digital records, books, accounts, and collateral vouchers to be retained for DCI market conduct examinations and solvency audits.
- **Administrative & Funding Pathways :**
- **MACHS & Fingerprinting:** Missouri Automated Criminal History Site (MACHS) portal background screening using DCI insurance registration code 2955.
- **Examination & Reporting Pathways:** State licensing examination administration through Pearson VUE; automated course roster and continuing education (CE) uploads processed via State Based Systems (SBS) for Organizations.
- **Veteran Funding & Fee Waiver Pathways:** Department of Veterans Affairs (VA) licensing examination cost reimbursement pathways alongside statutory DCI license fee waivers for eligible military veterans, military spouses, and low-income individuals.

2. Comprehensive Stakeholder Matrix

2.1. Statewide Stakeholder Impact Matrix

Role Title	Influence Level	Impact Level	Key Change Focus & Operational Shift	Engagement & Training Strategy
Lead Managing Partner / Executive Sponsor	High	High	Strategic oversight, curriculum standardization, and state regulatory alignment.	Executive briefings, milestone reviews, and program performance dashboards.
Lead Curriculum Facilitator / Master Instructor	High	High	Transitioning to the 24-hour Instructor Master Manual , minute-by-minute schedules, and verbatim scripts.	Train-the-Trainer (TTT) workshops and facilitator answer key briefings.
General Agent / Bail Agency Owner	High	High	Operationalizing the 8-Stage Life Cycle, enforcing non-technical collateral receipts, and monitoring sub-agents.	Management briefings, compliance checklists, and risk mitigation guides.

Pre-Licensing Candidate / Student	Moderate	High	Mastering the Student Master Textbook , section knowledge checks, and 24-hour Pearson VUE prep.	Blended ILT instruction, LMS e-learning, interactive flashcard apps, and video modules.
Licensed Bail Bond Agent	Moderate	High	Adhering to 10-day address updates (Rule 33.16), single POA rules, and \$10,000 savings assignments (RSMo 374.715).	Refresher modules, workflow job aids, and practical scenario workshops.
Surety Recovery Agent / Field Operator	Moderate	High	Mandatory police pre-notification (RSMo 374.757), 4th Amendment entry rules, and Graham v. Connor force limits.	Tactical field guides, dispatch logging tools, and practical handcuffing/search sessions.
Administrative & Compliance Officer	Moderate	Moderate	Fiduciary collateral tracking (RSMo 374.719) and filing monthly unsatisfied judgment affidavits (RSMo 374.760).	Administrative SOP guides, DCI audit compliance templates, and recordkeeping logs.

Veteran Candidate (GI Bill Pathway)	Low	High	Navigating VA Form 22-1990e to claim up to \$2,000 in state exam fee reimbursement through DCI/VA channels.	VA benefit step-by-step guides and licensing reimbursement flowcharts.
State Regulatory Auditor (DCI)	High (External)	Low	Reviewing 3-year record retention logs, collateral accounting, and pre-apprehension dispatch compliance.	Standardized statutory audit reporting and transparent record management.

3. In-Depth Impact Analysis by Stakeholder Group

3.1. Executive & Educational Leadership

Lead Managing Partner

1. **Key Operational & Regulatory Changes:** Assumes executive governance over the statewide rollout of the "Missouri Bail Bond & Surety Recovery Agent 101" platform. Directs corporate alignment with RSMo Chapters 374, 544, and Supreme Court Rule 33. Oversees intellectual property protections (© 2026 Griffin Consulting) and mitigates systemic liability across state jurisdictions.
2. **Potential Resistance Points & Operational Challenges:** High institutional liability associated with non-compliant field practices or misaligned training content; managing operational friction from General Agencies adjusting to mandatory digital oversight.
3. **Targeted Risk Mitigation Strategy:** Execute mandatory legal reviews of all SCORM course assets, embed statutory risk-management case studies into the curriculum, and maintain centralized, auditable logs of all provider course delivery records.
4. **Preferred Communication & Enablement Channel:** Direct executive briefings, board governance memos, and quarterly regulatory compliance reviews.

Lead Curriculum Facilitator

1. **Key Operational & Regulatory Changes:** Maintains the technical and pedagogical integrity of interactive SCORM packages built via eXeLearning. Guarantees complete statutory alignment across RSMo Chapters 374, 544, 324, and 548, while integrating common-law doctrine (*Taylor v. Taintor*). Enforces ADA compliance standards through structured alt-text definitions and custom © 2026 Griffin Consulting watermarks on all visual assets.
2. **Potential Resistance Points & Operational Challenges:** Maintaining technical SCORM package compatibility across diverse LMS environments and State-Based Systems (SBS) platforms; adapting curriculum content to rapid DCI administrative rule modifications.
3. **Targeted Risk Mitigation Strategy:** Deploy standardized eXeLearning iDevice templates (Text, Reflective Case Studies, Knowledge Check Quizzes); execute end-to-end technical SCORM validation testing before state deployment.
4. **Preferred Communication & Enablement Channel:** LMS administration portals, instructional design workgroups, and direct developer notes.

3.2. General Agencies & Operational Compliance

General Agent / Agency Owner

1. **Key Operational & Regulatory Changes:** Must execute General Bail Bond Agent Signature Forms (Form MO 375-0112 / Form MO 375-0034) for all supervised working bail bond agents. Enforces strict financial backing and master indemnity contract structures under Chapter 374. Mandates gathering at least 10 years of employment history, along with full residence and school background history, during defendant bond

application intake. Enforces the strict statutory prohibition against Power of Attorney (POA) stacking, ensuring agents never combine multiple POAs to satisfy a single bond amount.

2. **Potential Resistance Points & Operational Challenges:** Administrative burden of supervising working agents; financial risk and indemnification exposure resulting from unsatisfied bail forfeitures, improper collateral management, or illegal POA stacking.
3. **Targeted Risk Mitigation Strategy:** Deploy standardized agency onboarding workflows; establish mandatory internal audits of POA issuance logs, 10-year candidate intake files, and Rule 33.17 net asset qualification affidavits.
4. **Preferred Communication & Enablement Channel:** Statewide agency owner workshops, digital compliance digests, and State-Based Systems (SBS) organizational portals.

Administrative & Compliance Officer

1. **Key Operational & Regulatory Changes:** Responsible for maintaining client, fiscal, and operational records subject to DCI market conduct examinations under 20 CSR 100-8.040 and 20 CSR 200-4.010. Enforces strict objective collateral receipt rules under RSMo 374.719: personnel must use objective terms on numbered receipts (e.g., entering "yellow metal ring with one clear stone" rather than "diamond gold ring") and document all pre-existing item defects. Manages 30-day written change of status filings (20 CSR 700-6.170) and tracks 8-hour biennial CE compliance via SBS.
2. **Potential Resistance Points & Operational Challenges:** Operational friction when converting legacy paper files into auditable digital ledgers; avoiding \$25/month late fee penalties on expired agent licenses.
3. **Targeted Risk Mitigation Strategy:** Implement automated compliance management software to track license expiration dates, 1-year exam/training validity windows, numbered collateral receipts, and POA registry numbers.
4. **Preferred Communication & Enablement Channel:** Operational compliance manuals, SBS user reference guides, and direct compliance training webinars.

3.3. Field Operations & Licensing Candidates

Pre-Licensing Candidate

1. **Key Operational & Regulatory Changes:** Must satisfy statutory entry prerequisites: minimum age of 21, US citizenship, high school diploma or GED, completion of an approved 24-hour basic training course within one year before license application, passing the Pearson VUE examination (score valid for exactly one year), and MACHS fingerprint background check clearance under DCI code 2955. Must navigate full criminal history disclosure requirements by securing certified copies of Indictment, Information, Judgment, and Sentencing documents.
2. **Potential Resistance Points & Operational Challenges:** Complexity of gathering certified historical court documents for past legal charges; financial barrier of upfront costs (\$150 DCI license fee, examination fees, fingerprint processing fees).

3. **Targeted Risk Mitigation Strategy:** Provide candidate application checklists, embedded eXeLearning practice quizzes, clear statutory guidance on certified document retrieval, and guidance on VA exam reimbursement and low-income fee waiver pathways.
4. **Preferred Communication & Enablement Channel:** Interactive SCORM e-Learning modules, candidate handbooks, and Pearson VUE registration portals.

Field Recovery Agent

1. **Key Operational & Regulatory Changes:** Must operationalize legal recovery standards established by the common-law private jailer doctrine (*Taylor v. Taintor*) while strictly adhering to state boundaries. Must maintain clear functional role limits: Surety Recovery Agents are authorized strictly for fugitive recovery and **cannot** write bail bonds (whereas licensed Bail Bond Agents may perform both functions). Must follow dual law enforcement notification mandates: notifying local law enforcement dispatch under RSMo 324.2184 / RSMo 374.757 prior to apprehending fugitives, displaying official DCI credentials/badges, and wearing authorized identification apparel. Operates under strict force continuum limits and civil liability standards under RSMo 374.789 for false arrest, personal injury, or property damage. Authorized field equipment and techniques include handcuffs, leg chains, belly chains, body armor, body cameras, less-than-lethal weapons, binoculars, spotting scopes/night vision, and permission-based social media tracking.
2. **Potential Resistance Points & Operational Challenges:** Resistance to mandatory pre-apprehension dispatch contact; operational constraints in cross-border recovery under RSMo Chapter 548 (Uniform Criminal Extradition Act); adjusting to body camera documentation protocols.
3. **Targeted Risk Mitigation Strategy:** Integrate practical tactical scenarios (Case Studies 2.1–2.4) into training; emphasize non-lethal restraint mechanics, de-escalation tactics, body camera usage, and strict adherence to extradition law.
4. **Preferred Communication & Enablement Channel:** Practical tactical field modules, visual law enforcement dispatch infographics, and mobile reference guides.

3.4. Regulatory Oversight & Veteran Advocacy

State Regulatory Auditor

1. **Key Operational & Regulatory Changes:** DCI Regulatory Services personnel responsible for auditing statewide program compliance, inspecting physical/digital collateral ledgers under RSMo 374.719 and 20 CSR 100-8.040 / 20 CSR 200-4.010, auditing 8-hour biennial CE summary forms (20 CSR 700-6.160), collecting \$150 renewal fees (\$ 25/month late fee penalties), and validating individual surety net asset affidavits under Supreme Court Rule 33.17.
2. **Potential Resistance Points & Operational Challenges:** Processing incomplete renewal documentation; addressing unverified CE roster uploads; investigating consumer and law enforcement complaints regarding unauthorized recovery tactics or unnotified arrests.

3. **Targeted Risk Mitigation Strategy:** Require approved educational providers to upload course rosters electronically via State-Based Systems (SBS) for Organizations; establish clear digital audit trails across all SCORM learning modules.
4. **Preferred Communication & Enablement Channel:** State regulatory bulletins, DCI administrative portals, and SBS database management interfaces.

Veterans Affairs Representative

1. **Key Operational & Regulatory Changes:** Coordinates funding and benefit pathways for eligible military veterans entering the bail bond and surety recovery profession. Facilitates GI Bill examination cost reimbursements for DCI state licensing exams and promotes DCI statutory license fee waivers available for eligible military veterans and military spouses.
2. **Potential Resistance Points & Operational Challenges:** Veteran candidate lack of awareness regarding VA reimbursement processes and state license fee waiver programs; navigating multi-agency administrative workflows between federal VA portals and state DCI systems.
3. **Targeted Risk Mitigation Strategy:** Embed explicit VA exam reimbursement instructions, DCI fee waiver application forms, and portal links directly within course cover pages and final summary modules; cross-promote the Missouri Benefits and Resource Portal.
4. **Preferred Communication & Enablement Channel:** Veteran resource portals, military liaison briefing packages, and specialized vocational transition guides.

4. Change Engagement & Capability Roadmap

4.1. Multi-Phase Program Implementation Timeline

Implementation Phase, Target Stakeholders, Key Capabilities Enabled, Delivery & Enablement Channel, Verification Milestone

Phase 1: Regulatory Alignment & Strategic Governance, "Lead Managing Partner, Lead Curriculum Facilitator, State Regulatory Auditor", "Statutory mapping of RSMo 374/544/324/548, Taylor v. Taintor, Rule 33.17, and record retention rules into core learning modules.", "Executive briefings, DCI compliance reviews, and eXeLearning architecture planning." "Formal approval of HTML cover page, metadata, and statutory course outline."

Phase 2: Platform Onboarding & Candidate Enablement, "Pre-Licensing Candidates, General Agents, Compliance Officers", "Mastery of 24-hour basic training curriculum, eXeLearning SCORM interactive modules, objective collateral logging, and 10-year intake rules.", "SCORM-compliant e-Learning packages, SBS provider registration, and online portals.", "Generation of 24-hour basic training completion certificate within 1-year window."

Phase 3: Operational Execution & Tactical Field Protocols, "Field Recovery Agents, Veterans Affairs Representatives", "Execution of pre-apprehension dispatch contact (324.2184/374.757), DCI badge display, tactical gear usage, body camera operation, and VA fee reimbursement.", "Practical field case studies, visual dispatch infographics, and VA reimbursement portals.", "Pearson VUE exam passage and MACHS background clearance under DCI code 2955."

Phase 4: Audit Readiness & Renewal Governance, General Agents, Administrative & Compliance Officers, Regulatory Auditors, "Systematic management of 8-hour biennial CE tracking, 30-day change of status filings (20 CSR 700-6.170), and collateral ledger retention under 20 CSR 100-8.040." "SBS roster upload tools, DCI market conduct audit checklists, and automated renewal notices. Timely biennial license renewal (\$150 fee) processed without late fee penalties."

4.2. Core Competency Development Pillars

The "Missouri Bail Bond & Surety Recovery Agent 101" curriculum establishes ten core operational competency pillars:

1. **Fiduciary Collateral Management & Objective Description (RSMo 374.719):**
Absolute adherence to statutory rules governing client collateral. Mandates issuing sequential numbered receipts, recording objective item descriptions (e.g., "yellow metal ring with one clear stone"), logging pre-existing defects, enforcing cost reimbursement caps, and executing timely collateral returns.
2. **Power of Attorney (POA) Stacking Prohibition & Intake Protocols:** Enforces the strict rule prohibiting agents from combining multiple POAs to cover a single bond

amount. Mandates gathering 10 years of employment, residence, and educational history during bond application intake.

3. **Pre-Apprehension Law Enforcement Dispatch Contact & DCI Credentialing (RSMo 324.2184 & RSMo 374.757):** Mandatory execution of local law enforcement dispatch notifications prior to initiating fugitive recovery operations, coupled with the clear display of official DCI identification badges and authorized apparel.
4. **Common-Law Arrest Authority & Private Jailer Boundaries (*Taylor v. Taintor*):** Comprehensive understanding of the private jailer doctrine, contractual arrest authority, and its legal interplay with federal and state constitutional guarantees.
5. **Interstate Recovery & Extradition Compliance (RSMo Chapter 548):** Understanding jurisdictional limits across state lines under the Uniform Criminal Extradition Act, securing Governor's Warrants, and eliminating civil/criminal exposure linked to illegal cross-border abductions.
6. **Continuum of Force & Tactical Gear Execution (RSMo 374.789):** Application of constitutional standards of reasonable force, absolute prohibition of excessive or deadly force (absent imminent threat of death or serious bodily harm), body camera documentation, and authorized operation of restraints (handcuffs, leg chains, belly chains) and less-than-lethal weapons.
7. **Functional Role Distinctions & Scope of Practice:** Clear operational boundary enforcement establishing that Bail Bond Agents may write bonds and engage in recovery, whereas Surety Recovery Agents are strictly restricted to fugitive recovery and cannot write bail bonds.
8. **Individual Surety Qualification & Net Asset Verification (Supreme Court Rule 33.17):** Verification of net asset thresholds exceeding statutory exemptions equal to bond liabilities, confirming 15-year exclusions for felony or moral turpitude convictions/pleas, and verifying zero outstanding bail forfeitures or unsatisfied court judgments.
9. **Record Retention & Audit Readiness (20 CSR 100-8.040 & 20 CSR 200-4.010):** Maintenance of physical and digital operational records, financial ledgers, books, accounts, and collateral vouchers for DCI Market Conduct examinations.
10. **Biennial Renewal & Continuing Education Governance (20 CSR 700-6.160 & 6.170):** Managing two-year renewal cycles, completing 8 hours of approved CE, filing written status changes within 30 days, and executing electronic roster uploads via State-Based Systems (SBS).

5. Governance & Risk Escalation Protocols

5.1. Compliance & Audit Standard Operating Procedures

To maintain structural compliance under DCI regulatory oversight, all approved training providers, general agencies, compliance officers, and field personnel must strictly follow these standard operating procedures:

- **Student Completion Records & Roster Uploads:** Approved training providers must maintain permanent digital records of candidate completion for the 24-hour basic training program. Official course rosters must be uploaded electronically via State Based Systems (SBS) for Organizations immediately following course completion.
- **One-Year Statutory Expiration Windows:** Candidates and compliance officers must monitor key statutory deadlines: initial basic training completion certificates and Pearson VUE examination scores are valid for exactly one **(1) year** from the date of completion/passage. License applications submitted to DCI after the one-year window require full course re-attendance or examination retaking.
- **Fiduciary Collateral & POA Audit Trails:** General agencies must maintain physical and digital collateral logs subject to immediate DCI Market Conduct inspection under 20 CSR 100-8.040 and 20 CSR 200-4.010. Every collateral item must be recorded on a sequentially numbered receipt using objective descriptive terminology (e.g., "yellow metal ring") with documented pre-existing damage. Multiple POAs must never be stacked for a single bond, and full 10-year background intake files must accompany every bond contract.
- **Mandatory Change of Status Directive:** Pursuant to 20 CSR 700-6.170, any change or correction to an agent's legal name, residential address, business address, or Social Security Number must be submitted in writing to DCI Regulatory Services within **30 days** on the official change of status form.
- **Veterans Benefit & Fee Waiver Administration:** Compliance officers must inform qualifying veteran candidates of VA licensing examination cost reimbursement options and assist eligible military veterans, military spouses, and low-income candidates in submitting DCI license fee waiver requests.

5.2. Multi-Tiered Risk Escalation Matrix

Escalation Level, Risk Event, Trigger Condition, Responsible Professional Title, Mandated Resolution Standard

Level 1: Administrative Warning, Technical CE roster upload failure or unrecorded change of address/name exceeding 30 days, Discrepancy identified in SBS portal or address update unfiled past 30 days (20 CSR 700-6.170), Administrative & Compliance Officer, Re-upload course roster via SBS for Organizations; submit written Change of Status form to DCI within 5 business days.

Level 2: Renewal Deficit Lapsed license due to failure to report 8 hours of biennial CE before expiration date. Expiration of 2-year license cycle without reported CE or renewal submission.

General Agent / Agency Owner: File renewal application, submit CE summary form, pay \$150 renewal fee plus accrued \$25/month late fee penalties to DCI Insurance.

Level 3: Background Disqualification, Candidate application rejection or license suspension following MACHS fingerprint review., ACHS fingerprint portal scan (DCI code 2955) reveals undisclosed disqualifying record. Lead Managing Partner, "Obtain certified copies of Indictment, Information, Judgment, and Sentencing documents; submit written legal response to DCI Regulatory Services."

Level 4: Field Non-Compliance, Failure to notify local law enforcement dispatch or failure to display DCI credentials during field recovery (324.2184 / 374.757). "Police report, field audit finding, or formal complaint filed with DCI Regulatory Services.", Field Recovery Agent, Immediate suspension of recovery operations; complete mandatory retraining on Unit 2 law enforcement coordination; submit proof to DCI.

Level 5: Fiduciary Failure "Impropriety in collateral handling, subjective item descriptions, unnumbered receipts, or POA stacking (374.719). ", discrepancy identified during DCI market conduct inspection under 20 CSR 100-8.040 / 200-4.010. General Agent / Agency Owner, Immediate audit of agency collateral ledgers; issue full accounting and restitution to principal; correct POA logs; notify DCI Regulatory Services.

Level 6: Judicial Disqualification, Entry of an unsatisfied bail forfeiture judgment or post-licensure felony/moral turpitude conviction. Violation of Supreme Court Rule 33.17 disqualification standards or unpaid bond forfeiture judgment. Lead Managing Partner, Immediate revocation of agent working authority; surrender power-of-attorney documents; submit formal notifications to DCI and circuit courts.

Level 7: Severe Statutory Violation "Deployment of excessive force, false arrest, property damage, or illegal interstate abduction (374.789 / Chapter 548).", Criminal indictment, civil suit, or emergency license suspension order issued by the DCI Director.", Lead Managing Partner, Immediate termination of operational privileges; surrender DCI badges/credentials; full cooperation with law enforcement and DCI administrative hearings.
